We've all seen flyers hanging from mailboxes & even scattered round the suburbs from poor delivery. GUSHING money from your business.

**Belly up** I'm talking about giants like Ford, Campbell Soup, etc. etc. ... and hundreds of others that are so shaky, they could go **belly up** at virtually any moment.

**First things first.** Using the **special training** given to us in 1991. As demonstrated by the delivery of this flyer, we offer our services to **help fix your problem.** Imagine hordes of hungry **customers coming to your business,** all because your flyers were delivered with care. **Snapping up your specials** even to grab eagerly your premium products.

**GC City Council**  
The recycling calenders were delivered so well we got the business to also repair other faulty deliveries by other companies.

**Let me get right to the point.** Being delivered with care acts as an extension of the care you offer to YOUR customers, thus gives an importance to the flyer.

**Case in point:** Studies proved in 1990 also recently tested & validated 89.4% of people with No junk mail stickers actually welcome accidental deliveries. As a direct result these **people turned into customers,** which was found to be due to the care taken.

**Neptune Pizza**  
Your delivery is working great. So well I have to take on extra staff to handle the heaps of extra customers I get.

**If history has taught us anything,** If you do the same as these businesses & others have done, **you too will get the same results.** Increased **business growth & cash flow** for your venture.
